

PRACTICAL, IN-DEPTH EXPERIENCE WITH CERNER MILLENNIUM®

In working with Cerner Corporation and Cerner customers, the team at Just Associates has become highly proficient in Cerner products and has completed numerous engagements related to the implementation and optimization of Cerner products, namely Cerner Millennium. Our knowledgeable team can assist with a complete portfolio of advisory and optimization services, and we are willing to work in concert with your team members as they develop Cerner expertise for your own internal support. In our project work, our experienced consultants focus on standard methodologies, rigorous analysis, change management, and knowledge transfer.

SPECIALIZING IN HEALTHCARE DATA INTEGRITY

Just Associates is a specialized HIM consulting firm that develops and implements innovative solutions for healthcare organizations. While we provide a variety of operational and technology-related services, we are predominantly known for our expertise regarding attainment of data integrity across the healthcare enterprise. Our primary focus is creating customized solutions that will meet our clients' specific data integrity challenges, no matter how complex. We work closely with our clients to assess and define the problems, develop solutions, and then implement those solutions. We believe the ongoing involvement of our experienced principals on every assignment is the key to ensuring client satisfaction.

CERNER MILLENNIUM CLIENTS SPEAK ABOUT JUST ASSOCIATES' SERVICES

While Cerner Millennium is a very powerful and flexible system, its broad capabilities can often present a high degree of complexity for the user. The specialists at Just Associates have developed extensive experience and an in-depth understanding of Cerner's person-centric data model. We have helped Cerner clients achieve clean databases, avoid data integrity issues and maximize the benefits of Cerner's technology.

JA'S CERNER MILLENNIUM ADVISORY SERVICES:

- Guidance on registration business processes
- Best practices for person/patient update conversations
- EMPI threshold settings and configuration
- Person-centric data model training for scheduling, registration and HIM staff
- EMPI maintenance procedures
- Evaluation of data upload feeds
- Design of merge messages to downstream systems

“We chose Just Associates because of their Cerner expertise and vast experience in HIM technology. JA understands the nuances of the Cerner system, and as a result, can eliminate problems before they even occur. JA’s close working relationship with Cerner also speeds problem resolution related to system design issues.” – Meg McGill, Corporate Administrative Director of HIM, Methodist Healthcare - Memphis, TN

JA’S CERNER MILLENNIUM OPTIMIZATION SERVICES:

- Patient searches – optimize list of patients displayed to reduce the number of duplicates created
- Auto Reconcile configuration – reduce the creation of overlays
- Manage merge queue – learn ways to cleanup your duplicates more quickly

A FULL SPECTRUM OF PATIENT DATA INTEGRITY SOLUTIONS

Just Associates provides data integrity services that decrease the incidence of patient information duplication and minimize the ongoing costs of maintaining patient data quality. Accurate, complete, and consistent data is needed to identify a patient’s medical record and to link Electronic Health Records across disparate databases and healthcare organizations, including Regional Health Information Networks. Through a unique combination of professional services and advanced technology, we help our customers identify and remedy processes that jeopardize data quality.
